

COMPLETE APPLICATION WORKFLOW & OPERATIONAL MANUAL

The Definitive 360° Guide to Roles, Sadhana Tracking, Supervisor CRM, Mentorship & Administration

Official Platform Documentation • Dual-Segment Real-Time Architecture

1. EXECUTIVE SUMMARY & CORE MISSION

Prabhupada World Academy is an enterprise-grade digital platform designed to cultivate strict personal spiritual discipline, transparent community mentorship, grassroots study group leadership, and structured preaching outreach. It harmonizes ancient Vedic devotional standards with modern cloud and mobile technology.

ଠ<ଢ଼ଠ Dual-Segment Community Architecture (PW vs FOLK)

1. Prabhupada World (PW Segment): The global community of practitioners and families focused on daily home and temple sadhana, Srila Prabhupada book distribution, spiritual accountability, and lifelong progression.
2. FOLK Segment (Friends of Lord Krishna): The youth, university, and bachelor residency wing focused on student mentorship, hostel/residency cleanliness, weekly Bhakti Vriksha groups, and structured training milestones (from Jigyasa to Diksha).

Core Architectural Pillars

Five Foundational Pillars of the Platform

- Daily Sadhana Accountability: Enforces structured daily logging of chanting (16+ rounds across 4 time intervals), Brahma-Muhurta wake-up, book reading, lectures heard, seva, and cleanliness.
- Mentorship Visibility: Provides Sadhana Mentors and Guides with real-time compliance rosters, historical scorecards, trend charts, and 1-on-1 counseling record-keeping.
- Supervisor Preaching Outreach CRM: Equips Bhakti Vriksha Supervisors with a field CRM to log daily Calling Minutes, 1-on-1 preaching sessions, Book Distribution, RDUa study, and new contacts collected.
- Multi-Channel Automated Reminders: Delivers instantaneous in-app toasts and OS-level Web Push notifications across scheduled night and morning reminder slots.
- Role-Based Governance: Centralized Super Admin command center for user approvals, guide assignments, segment overrides, and macro-analytics.

2. GRANULAR ROLE-BASED ACCESS CONTROL (RBAC)

The platform operates on a strict multi-tier hierarchy where user roles determine visible dashboards, data access scopes, notification privileges, and management capabilities:

Role / Persona	Segment Scope	Primary Responsibilities	Visible Dashboard
Sadhaka (User)	PW / FOLK	Daily sadhana submission, personal streak analysis, BV group participation	User / Sadhana Dashboard
Sadhana Mentor / Guide	PW / FOLK	Mentee roster compliance, scorecards review, 1-on-1 counseling, transfers	Guide / Mentor Dashboard
BV Supervisor	PW / FOLK	Bhakti Vriksha group leadership, daily preaching logging (Calling, Books, RDU, IA)	Supervisor / BV Dashboard
RGF / RGSF	FOLK Residency	Residency Guide Facilitator overseeing multiple supervisors and groups	RGF / RGSF Dashboard
Super Admin / PW Admin	Platform-wide	Master administration, user approvals, guide assignments, push broadcasts	Super Admin Command Center

Detailed Persona Profiles

1. Sadhaka / Practitioner (Regular Mentee)

- Enters daily sadhana (chanting rounds, rising time, book reading minutes, classes heard, service).
- Views personal performance stats: Sadhana Score (0–100%), historical compliance graphs, unbroken streaks.
- Connects with assigned Guide / Mentor and accesses scheduled Bhakti Vriksha meetings.

2. Sadhana Mentor / Guide

- Assigned a cohort of devotees; monitors live daily submission compliance (Submitted vs Pending).
- Drills down into devotee scorecards (wake-up consistency, chanting focus, reading volume).
- Logs confidential 1-on-1 counseling notes and coordinates group Zoom / Google Meet sessions.

3. Bhakti Vriksha (BV) Supervisor

- Leads weekly Bhakti Vriksha chanting & study groups and manages group member rosters.
- Submits daily Field Preaching Entries: Calling Minutes, 1-on-1 sessions, Books distributed, RDU time, and Planning time.
- Prospects and registers new outreach contacts collected during street, university, or corporate programs.

4. Super Admin & PW Admin

- Highest administrative tier with complete cross-segment visibility across both PW and FOLK.
- Approves pending user registrations, reassigns mentors, and manages account status (Active, Inactive, Rejected).
- Broadcasts instant and scheduled Web Push alerts with custom titles and deep links directly to user devices.

3. PHASE 1: REGISTRATION, VERIFICATION & APPROVAL LIFECYCLE

Every user undergoes a structured onboarding pipeline to ensure authenticated identity, correct mentor pairing, and proper segment isolation before gaining full platform access.

Account State Machine Workflow

- Step 1: Sign-in via Google OAuth or Magic Link
- Step 2: Profile Registration Form (Name, Country Code Phone, Ashraya Level, Guide Selection)
- Step 3: Account Enters [PENDING_APPROVAL] State (Quarantine Gate)
- Step 4: Super Admin / Assigned Guide Reviews Profile & Approves " " [ACTIVE]
- Step 5: User Unlocks Segment Dashboard & Daily Sadhana Access

Spiritual Examination & Ashraya Levels

During registration, users specify their current spiritual milestone. This allows Mentors and Admins to tailor expectations and counseling to the devotee's stage of advancement:

Level	Stage Name	Significance & Spiritual Standard
Level 0	Jigyasa (Inquirer)	Newcomer exploring Krishna consciousness, beginning basic mantra meditation.
Level 1	Shraddhavan	Developing faith, attending weekly programs, chanting 1–4 rounds daily.
Level 2	Sevak	Committed to regular temple/group seva, chanting 4–8 rounds daily.
Level 3	Sadhaka	Practicing steady sadhana, chanting 16 rounds daily, following 4 regulative principles.
Level 4	Upasaka	Advanced devotee actively assisting in preaching, mentoring, and group facilitation.
Level 5	Caranashraya	Sheltered candidate preparing for formal initiation vows under a Guru.
Level 6	Harinam Diksha	Formally initiated devotee maintaining lifelong vows of 16 rounds and 4 principles.

Country Code & Global Phone Capture

Global Communication Architecture

- International Support: Seamless selector for +91 (India), +1 (USA/Canada), +44 (UK), +61 (Australia), +81 (Japan), +49 (Germany), +7 (Russia), and global formats.
- Direct WhatsApp / Calling Integration: Allows Guides and Supervisors to initiate 1-click WhatsApp follow-ups directly from the compliance roster.
- Unique Device Identity: Ensures each phone and email is linked to a single registered profile to eliminate duplicate accounts.

4. PHASE 2: DAILY SADHANA DISCIPLINE & ANALYTICS

The Daily Sadhana Form is the operational heart of the application. Spiritual practitioners submit this report daily before sleeping, capturing precise spiritual data points.

Sadhana Parameter	Granular Fields Captured	Benchmark Standard
Wake-up & Rest	Exact wake-up time, sleep time, total rest duration	Rising before 4:30 AM (Brahma-Muhurta)
Chanting (Japa) Slots	Rounds before 8AM, before 12PM, before 6PM, after 6PM	16+ rounds (priority before 12:00 PM)
Chanting Focus	Self-evaluated quality / attentiveness score (1–10)	Mindful, focused, non-distracted japa
Book Reading	Srila Prabhupada book title, duration (mins), pages read	Minimum 30–60 minutes daily reading
Hearing / Classes	Class duration (mins), Speaker name, Topic / Scripture	Hearing lectures, kirtans, or philosophy
Seva / Temple Service	Specific devotional service performed (cooking, cleaning, etc.)	Active daily devotional engagement
Cleanliness & Mood	Cleanliness score (1–10), Devotional association, Mood notes	Personal hygiene and spiritual reflection

Dynamic Scoring Algorithm & Streak Logic

&j Instant Sadhana Composite Score Calculation

Upon submission, an automated algorithm evaluates the report and generates an instant score from 0% to 100%:

- Wake-Up Timing (25%): Full points for rising before 4:30 AM; scaled reduction for rising after 6:00 AM.
- Chanting Rounds & Timeliness (40%): 16 rounds completed, weighted higher when completed before noon.
- Book Reading (20%): Full points for "e 30 minutes of Srila Prabhupada literature study.
- Hearing & Seva (15%): Evaluated based on lecture duration and active devotional service performed.

Personal Analytics & Streak Tracking

- Historical Submission Calendar: Interactive heatmaps and daily logs allowing users to review past submissions.
- Unbroken Daily Streak: Gamified streak counter that motivates devotees to maintain continuous daily reporting.
- Compliance Trends: Visual charts showing 7-day, 30-day, and 90-day consistency in rising times and chanting completion.
- Retrospective Editing Safeguards: Allows editing for recent dates while enforcing audit trails for mentor review.

5. PHASE 3: MENTORSHIP OVERSIGHT & DEVOTEE SCORECARDS

The Guide / Sadhana Mentor Dashboard is engineered to give mentors immediate, 360-degree clarity on the spiritual health of their assigned devotees without manual tracking overhead.

Core Guide & Mentor Capabilities

- **Daily Compliance Roster:** Live categorized roster showing "Submitted Today" (green), "Pending Submission" (amber), and "Inactive / Missing" (red). Mentors can filter by date to inspect compliance.
- **Devotee Scorecard Drilldown:** Clicking any devotee opens their comprehensive spiritual dossier: wake-up timing graphs, chanting slot distribution, book reading consistency, and average sadhana score.
- **Confidential 1-on-1 Counseling Logs:** Mentors record private counseling notes, spiritual hurdles discussed, commitments made, and follow-up target dates.
- **Mentee Transfer Workflows:** Seamlessly handles devotee relocation when transferring between residencies or guides, requiring confirmation from both parties.
- **Group Online Meetings:** Guides can create Zoom or Google Meet sessions with automatic 15-minute push reminders sent to all invited mentees.

Mentorship Review Cycle (A Day in the Life of a Guide)

Ø=ÜË Daily Mentorship Operating Rhythm

1. 08:00 AM (Morning Check): Mentor inspects morning wake-up and japa completion across the cohort.
2. 09:30 PM (Night Review): Mentor checks the pending submission list. Devotees who have not yet submitted receive a quick reminder.
3. Weekly 1-on-1 Counseling: Mentor reviews the 7-day scorecard with the devotee during their scheduled 1-on-1 call, praising consistency and troubleshooting spiritual obstacles.
4. Monthly Review: Mentor reports cohort progress and advancement recommendations to the Supervisor.

6. PHASE 4: SUPERVISOR PREACHING CRM & BHAKTI VRIKSHA (BV)

Supervisors (Bhakti Vriksha Supervisors) are the frontline preaching leaders. The application provides them with a dedicated Preaching CRM to track personal field outreach and manage weekly reading groups.

Preaching Parameter	Field Measurement	Operational Purpose
Calling Time	Minutes spent on outreach / follow-up calls	Nurturing new devotees and inviting guests to meetings
1-on-1 Sessions	Minutes & Count of 1:1 preaching meetings	Personal counseling, answering doubts, deep philosophy
Book Distribution	Minutes & Number of Srila Prabhupada books given	Distributing Bhagavad-gita, Bhagavatam, small books
RDUA Study Time	Minutes in Reading, Discussion, Understanding, Application	Self-study & preparing discussion topics for BV meetings
Planning Time	Minutes spent in weekly preaching strategy	Organizing venues, scheduling calls, allocating seva
Contacts Collected	Number of new prospective contacts gathered	Street outreach, book table contacts, campus programs

Bhakti Vriksha (BV) Group Management Workflow

Bhakti Vriksha Group Operations

- Group Creation: Supervisors establish BV Groups with defined group names, meeting times, and meeting links/venues.
- Member Enrollment: Devotees join via 1-click invite link or group selection during registration.
- Weekly Attendance Tracking: Supervisors log attendance for every weekly session, marking present, absent, or excused.
- Member Spiritual Progression: Tracking members as they advance from inquirers (Jigyasa) to chanting devotees (Sadhaka).
- Macro Preaching Analytics: Cross-group analytics for Supervisors and RGFs showing total calling hours, total books distributed, and top outreach contributors.

What is RDUA?

RDUA is the standard Bhakti Vriksha preaching methodology:

- Reading (R): Reading verses and purports from Srila Prabhupada's books together.
- Discussion (D): Interactive exploration of philosophical questions.
- Understanding (U): Clearing doubts and establishing philosophical clarity.
- Application (A): Translating spiritual wisdom into daily life, work, and relationships.

7. PHASE 5 & 6: PUSH NOTIFICATIONS, SEVA & ADMIN CONSOLE

Phase 5: Multi-Channel Real-Time Push Notification Engine

Notification & Alerting System

- Dual-Channel Delivery Pipeline: Combines W3C Web Push (ECDSA / AES-128-GCM / VAPID) for OS-level background delivery with a Server-Sent Long-Polling Stream (/api/push-events) for instantaneous foreground in-app toasts.
- Automated Nightly & Morning Reminder Schedule:
 - Night Round 1 (9:20 PM IST): Initial friendly reminder to fill the sadhana report.
 - Night Round 2 (10:20 PM IST): Follow-up alert for devotees about to sleep.
 - Morning Final Grace (7:40 AM IST): Last chance alert before the submission cutoff.
- Super Admin Broadcast Console: Allows Super Admins to send instant custom alerts with custom titles and direct deeplinks, targeted by segment (PW vs FOLK).
- Meeting Push Alerts: Auto-dispatches push alerts to invited mentees 15 minutes before scheduled meetings.

Phase 6: Facility Cleanliness & Temple Service Rosters

Cleanliness & Facility Seva Management

- Cleanliness Auditing: Daily cleanliness rating and inspection logs for residency rooms, temple halls, and common spaces.
- Service / Seva Allocations: Assigning daily temple duties (Deity worship, kitchen seva, book stall, garland making, cleaning).
- Compliance Tracking: Ensures all residency residents actively participate in devotional service alongside their daily study.

Super Admin Command & Governance

Master Administrative Controls

- User Management Console: Master database view to approve, activate, deactivate, or reassign any user or mentor.
- Segment Override: Capability to switch users between Prabhupada World (PW) and FOLK tracks.
- Super BV Preaching Analytics: Consolidated reporting across all Supervisors, Guides, and Residencies.

8. TECHNICAL ARCHITECTURE & BEGINNER SUMMARY

Enterprise Cloud Technology Stack

Component	Technology Utilized	Operational Benefit
Frontend Framework	Next.js 16 (App Router + SPA Hybrid Mode)	Blazing fast load times, client routing, modern React 18 UI
Styling & Animations	Tailwind CSS, Framer Motion, Lucide Icons	Responsive mobile-first design with smooth micro-interactions
Database Layer	Google Cloud Firestore (Multi-region NoSQL)	Real-time synchronization with automatic offline cache fallback
Authentication	Firebase Auth + JWT Session Validation	Secure Google OAuth, Magic Links, and role claims verification
Push & Real-Time	Web Crypto VAPID + Server-Sent Long Polling	Zero-dependency pure Web Crypto push notification engine
Cloud Deployment	Firebase App Hosting on Google Cloud Run	Containerized autoscaling infrastructure with multi-zone redundancy

Quick Explainer for a Stranger (Cheat Sheet)

Ø=Ü; Explaining the App in Simple Terms

"Imagine a fitness app like Strava or Fitbit, but built for your spiritual life, meditation, and devotional service. Every day, devotees log their chanting meditation, sacred book reading, and wake-up times. Their assigned Mentors look at their scorecards to encourage and guide them. Meanwhile, outreach Supervisors track their preaching calls, book distribution, and weekly study groups. It brings discipline, accountability, and loving community care to spiritual growth."
